

28th September – 4 October 2020

This week we turned our content private for paid members only to ensure they got their benefits, now that student loans had come in. We changed our website to have password protected content for our members only, where they received updates on all things academic, social, fitness and some suggested family activities. Our original Facebook group for everyone interested in the society was closed, and we transitioned to our members only group. Over the next few weeks, our website will be revamped to make it even better for our members.

We will continue with weekly Wellness Wednesday. Our blog will now be fortnightly to ensure the content is meaningful and manageable for us to write.
